## Texas Emigration and Land Company! 320 Acres of Land for \$20--160 Acres of Land for \$10.

THE Texas Emigration and Land Contant having derived their Grant from the late Republic of Texas, by contracts made with the President thereol, under authority of the special acts of Congress, approved 4th February, 1841, and 16th January 1843, granting lands to Emigrants, will continue to give 120 acres of land to families, and 160 acres of land to single men over 17 years of age, until the 1st day of July, 1848, conduloned, that the family shall pay \$20, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—

that the family shall pay \$20, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—

"A man and his wife, with or without children."

"A widower with two or more children; if makes under 17 years of age, if females, unmarried."

"A widow with two or more children; if makes under 17 years of age, if females, unmarried."

"Two single men over the age of seventeen years, each one being entitled to 160 acres."

On his arrival in the Colony, the Emigranis should forthwith apply to the Agent of the Company, Mr. Henry O. Hedgooxe, residing at Stewartsville, in Benton county, who will at all times he ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and sive him a certificate therefor; which certificate will be evidence of his having settled in the Colony in due time.

Our Grant hes in the North-Eastern part of Texas, between the 32nd and 31th degrees of Latitinde North, and 19th and 12nd degrees of Longitude West, from Washington; beginning on the south side of Red River, at a point 12 miles east of the False Ouachitta, running thence due South 100 miles, thence East 164 miles, thence North 100 miles, thence West 164 miles to the beginning, having a front on the meauderings of Red River of nearly 300 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Erason and Trinity Rivers, the Traity being navigable for Steem Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 miles from Galveston, and Red River, to the Mississappi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wbeat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 50 pounds to the bashel. Indian corn, rye, harley, oats, sweet and Irish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hem

The planting season commences in February and continues until July.
Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated &th May, 1847.—
"I will not venture to tell my friends in Kentucky that the land here was better than the best land in Kentucky, because they would not believe it; but now I assert it, for the soll is deeper, being in many places five feet, and the kindest land to work I exercipe put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Texas expire on the 1st day of July, 1848, and that he must not only be in the Colony, but that he must have selected his land, built a house or cabiu thereon, and he residing therein with his family by that day:—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons desiring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

This paper will be devoted to the discovery, illustration, and defence of truth—to the advocacy of whatsoever things are pure, lovely, and of good report. So far as it may be deemed expedient to give it a local character, it will aim nore especially, to promote the interests of Apostohic Christianity in Kenucky. But a brief outline of its intended course, can be here sketched.

1. A caulid and thorough examination of the questions havolved in Church Organization and Co-operation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let moone depicted discussion. In the midst of society in rapid progress, it is unavoidable, and is to be invited, rather than repelled. It is not discussion that is dreaded, but those angry cersonalities, into which, even religious discussions too often descend. Nathing of these last, shall ever have a place on the pages of the Mirror, in general, nothing that can be personally offensive to any one, will be admitted, unless the defence of the community against imposture, shall unless the defence of the community against imposture, shall unless the defence of the community against imposture, shall unless the defence of the community against imposture, shall unlessly the solid progress, and ultimate aims of the Reformation.

111. To formsh entertaining and instructive reading for the younger members of churches, being not the least important am of our paper, we shall altempt, for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Reformation.

111. File subject of Education in general and of Female Education in particular, will receive such attention as we may be able to give. Hins, as to the best mode of instructing a family in the Sacred Scriptures, will be offered.

11. V. tondensed reports from Churches and Evangelists, reports of State, Annual, and Co-operation meetings will be published; and any advertisement required by the common interests of the churches.

12. Dealer in Foreign and Domestic Liquors, Wines,

ests of the churches.

V. We shall endeavor to record in a few lines, the principal religious events of the times

VI. But especially, and above albthings else, we shall invite our beloved hotherhood forward and upward to the bigber grounds of goddiness, brotherly kindness, and charity. It is mainly from a desire to accomplish something in this respect, that this prospectus is submitted to the public. The field we purpose cultivatine, is not occupied fully by our writers, nor has it been. We shall, if possible, make the Mirror equal to our times, both in its mechanical and literary features, and yet, we shall aim to be useful rather than shining. Giadly will we forego the honor of being thought a philosopher—an accomplished essayist—a profound expositor, if we may but successfully lavie the thousands of young professors away from the vauities of earth, to the enjoyment of the grace of Christ, the love of God, and the communion of the Holy Spirit. And whether we reason or discuss; reprove or rehuke; exhort or entreat; we hatend that the paper shall, in some good degree, raflect the excellency of the knowledge of Jesus Christour Lord.

Those to whom this prospectus shall be sent, are respectfully requested to interest themselves in behalf of our project. Should it succeed, the proceeds will shortly be appropriated to the benefit of a charitable justifution, that every friend of the female or phan—that every philanthropist must approve. If our proposition is efficiently seconded, we shall be pleased, if not, we shall neither be offended, mortified, or ujured.

Mr. TOWLES was opposed to the bill on constitutional, and other grounds; he discussed it at some length. His remarks will be given hereafter

Mr. MOORE did not think this bill conflicted at all with the Constitution. The "ancient mode of trial by jury" was still preserved, and this bill did not affect the mode at all; it was merely an incidental matter, and so far as the p licy of passing this law was concerned, he had no doubt of its correctness. The Commonwealth was laboring under great disadvantages under the present law, and which, if this bill was passed, would be obviated, and place the Commonwealth's Attorney in such a position, as would enable him to put in execution the law against criminals. He discussed the matter at some

A message was received from the Governor, announcing his approval of certain bills, &c.

Mr. COMBS thought it better for the Legislature to do what seemed to them politic and right, and leave to the courts to decide upon the constitutionality of the law. He did not think it unconstitu-tional, for it did not affect at all the "ancient mode of trial by jury." There was not a man who had been in a court of justice during the trial of a criminal, but had seen the great disadvantage under which the Commonwealth Attorney labored in consequence of the introduction of jurors who were pledged to clear the criminal, but who could not be kept from the jury box without a peremtory challenge which this bill proposed to give. Is an invaluable remedy for Epileptic Fits, or Falling Sickness, Convulsions, Spasms, &c. Tis well known, that from time lineaemerial, Physicians have pronounced Epileptic Fits in curable. It has baffled all their skill, and the boasted power of all medicine, and consequently thousands have suffered through a miserable existence, and at last yielded up their lives on the altar of insanity. Physicians of every are have pronounced this disease incurable. The proprietors of the Veretable Extract, however, feel no delicacy in saving that it can be cured. They would, therefore, respectfully invite P yielders and all others who are interested, to examine the restimons which is here othered. If it is deception, let it be expassed; but 'fit is true, 'ten in the name of humanity, no longer let it be suffated the helplepsy is invarable.

HART'S VEGETABLE EXTRACT,

For exiteer vears, has been tested by many persons who have suffered with this dreadful disease, and in every case where it has had a fair tral, has effected a permanent cine.

Col. Benslow, of Youkers, New York, states that his daughter has been afficied with Fits for more than 9 years, and has been cured by the use of the Vegetable-Extract.

Mrs. J. P. adject, 110, Orchard street, New York, states that she as been seed to Fits for many years, and has been restored to price health after every other means had failed) by the use of the Versian te Extract.

## LIFE INSURANCE.

NAUTILUS (MUTI'AL LIFE) INSURANCE COMPANY, No. 29, WALL STREET, NEW YORK.

NY, No. 29, WALL STREET, NEW YORK.

THIS Company, which confines its business exclusively to Life Insurunce, has now been in operation two years and a half, during which period it has issued 15/3 policies, and for the first eighteen mouths it experienced no loss. Its losses for the whole time have been less than \$15,000-leaving an accumulation of about \$65,000 on hand, beyond the payment of claims and expenses. This, added to the original guaranty capital of \$50,000, places the security of the Company on a basis so solid as no longer to admit of a rational doubt.

All its profits accrue to the credit of the dealers, and are divided annually among them, whether the policy be issued for a limited period or lor the whole term of flie, a feature unknown in the charter of any other Mutual Life Insurance Company in corporated by this state.

Two dividends of 50 per cent, each, on the amount of premiums received, in accordance with the provisions of the charter, have been declared, and are credited to the accounts of the assured, and for which scrip certificates will be issued.

A dividend of 6 per cent, on the first year scrip has like wise been declared, payable in cash, to the holders thereof on DENAND, at the office of the Company.

For policies granted for the whole term of life, when the premium theretor amounts to \$50—a note for 40 per cent with in terest at 6 per cent, —without yearanty, may be received in part

Board of Visitors,

Appointed by the Executive of the Commonwealth.

Appointed by the Executive of the Commonwealth.

It contemplates a Military Organization for Literary and Scientific purposes; an education eminently scientific and practical; the formation of regular habits, and the diffusion of a knowledge of Military Science.

Military duties will not be permitted to Interfere with the pupil's progress in study, but will rather take the place of his unprofitable, and often, vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Celleges, except that but one language is required. (Latiu or French.) the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature.

tended course in Mathematics, Natural Science and English Literature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Franklort, Kentucky, (recently occupied by the Franklin Institute.) is admirably adapted in every respect to Academical purposes; the locality being airy and healthy, the mineral waters salubrious, the buildings elegant, extensive and commodious, and entirely apart from the contamination and multiplied medical influences, which seem inseparable from a city or village residence. The Institution is placed under the charge of Col. R. T. P. ALLEN, as NUPPRINTENDENT, who has been brought prominently before the public, as a competent and successful teacher and governor of youth, by his honorable graduation at the United States Military Academy; his subsequent connection with the Army, and with the Engineering Service of the General Government, as Superintendent of public works; by his long experience as an Instruct, by his recent connection with the Teacher.

meut, as Superintendent of public works; hy his long experience as an lustructor, by his recent connection with the Transylvania University. The Academic Year will be divided into two Sessions of twenty one weeks each.

The first commencing on the 1st Monday in October, and the econd on the 1st Monday in March. The only vacation occupying second on the 1st Aumas, in States.

the months of August and September.

The month of July will be spent in an excursion torough the State, for the better study of its Geology and of Natural Science

generally.

Applicants for admission, on paying the charge of the Institute and presenting a certificate of good moral character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination thereafter, will be entitled to a warrant of appointment, as Cadet, from the Governor. The uniform of the Cadets is plain and next, and being o Kentucky Jeans, will greatly reduce the expeuse of their clothing

Dr. Penney's Ague Pills. In Freningy's Ague Fills.

In presenting the public with this remedy for the most trouble some of Western diseases, I am not unapprized of the opposition that it will at first meet; for the community has suffered much by the impositions and frauds practiced by the getters-up and venders of patent nostrums, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions on their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any Disease; but I do it, and do it too, sanguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to cure in one solitary case where the directions were strictly observed.

never failed to cure in one solitary case where the directions were strictly observed.

They seem equally as well adapted to Agues of long standing as more recent ones. I could adduce a great many certificates in support of what has been said above, as regards their success; but that would swell, unnecessarily, this publication. A lew respectable witnesses are worth a host that are otherwise. See what Dr. John McRoberts, Druggist and Physician in Lawrenceburg, Kentucky, says, whose acquaintonic with the Ague Pills is better than that of any other person. LAWRENCEBURO, Ky., Oct. 1847.

This is to certify, that I have been selling Penney's Ague Pills, as local Agent for this place since some time last spring; and in every solitary instance that has come to my knowledge, they have succeeded in curing the Chills and Fevers. I heartily recommend them to the public, as a remedy every way worthy of confidence.
